Product Overview

Compact Performance for Vehicle Maintenance

This portable 12V DC tire inflator is designed for high-performance automotive maintenance on the go. Featuring a robust 30mm cylinder and capable of delivering 35L/min, it efficiently handles tire inflation tasks while maintaining a compact and lightweight profile. Integrated features such as a bright LED light and dedicated storage compartments for cables and hoses ensure convenience and ease of use in emergency roadside situations.

Technical Specifications

Air Flow Rate

35 L/min

Air Flow

100 PSI

Max Pressure

Input Voltage	DC 12V
Rated Power	120 W
Cylinder Diameter	30 mm

Physical Features

Net Weight	1.25 kg
Built-in Features	LED Light (4pcs), Digital or Metal Gauge, Cord Storage, Air Hose Storage
Cord Length	3 m

Logistics

Bulk Logistics Data

Metric	Details
Units per Carton	8
Carton Dimensions	56.5 x 25 x 39.5 cm
Gross Weight per Carton	12 kg
20ft Container Load	4000 pcs
