

Portable 180L Electric Concrete Mixer

This portable electric cement mixer is suitable for both DIY and professional applications. Its durable steel frame ensures sturdiness, while large wheels facilitate easy transportation.

Overview

Versatile Mixing Solution

This portable electric concrete mixer is designed for both professional job sites and demanding home DIY projects. Featuring a durable all-steel frame and a high-capacity drum, it provides a reliable solution for mixing concrete, mortar, and other construction materials. Its mobile design and safety-focused features ensure efficient operation and easy transport across various work environments.

Performance & Power

Performance Highlights

180 L

Drum Capacity

650 W

Motor Power

Technical Specifications

Model Number	QTP4550
Drum Mouth Diameter	390 mm

Physical Properties

Physical Dimensions

Dimension	Value
Overall Size	125 x 83.8 x 127 cm
Net Weight	61 kg

Design Features

The robust steel construction and large wheels make this 180L mixer ideal for mobile construction tasks.

Key Features

- Durable all-steel frame construction
- Reinforced drum rim for extended lifespan
- Large wheels for easy site mobility
- Safety on/off switch for hands-free operation
- Fully enclosed motor housing
- User-friendly tilting mechanism for controlled pouring

Recommended Applications

Concrete, Mortar, Construction, DIY Projects
