

Portable 220V/12V Air Compressor with Gauge

This versatile air compressor is designed for inflating tires and other inflatable items. Operating on both AC 220V and DC 12V power, it is suitable for use at home or in a vehicle.

Product Overview

Versatile Dual-Power Air Compressor

The AC220/DC12V Air Compressor is a compact and highly versatile device engineered for efficient tire inflation and general-purpose use. Designed for flexibility, it operates seamlessly on both AC 220V home power and DC 12V vehicle power, making it an ideal companion for both home and on-the-road applications. Equipped with a built-in pressure gauge and multiple nozzle adaptors, it ensures accurate and reliable inflation performance up to 250 PSI.

Technical Specifications

Quality & Safety Certifications

TUV GS • CE

Power Compatibility	AC 220V, DC 12V
Maximum Pressure	250 PSI

Features

Included Accessories

- Built-in pressure gauge
- Multiple nozzle adaptors
- On/Off switch
