

Portable 25 Liter Dehumidifier with Electrical Control

This portable dehumidifier removes up to 25 liters of moisture from the air daily. It features electrical control, a timer, and automatic defrosting.

Overview

Portable 25 Liter Dehumidifier

This portable dehumidifier is designed to effectively remove excess moisture from indoor environments, helping to prevent mold and mildew growth. Featuring electrical controls and a rotary compressor, it ensures efficient, low-noise operation suitable for various residential or small commercial spaces. The unit is built for convenience, including caster wheels for easy mobility, a removable water tank, and automatic shut-off functionality.
