

Portable 4G LTE Universal Fi Device

This portable 4G LTE Ufi device is designed to provide high-speed internet access on the go. It supports multiple devices simultaneously, making it ideal for travel, remote work, or situations where a reliable internet connection is needed.

Product Overview

High-Speed Portable Connectivity

This portable 4G LTE Universal Fi device provides reliable, high-speed internet access designed for professionals on the move. Supporting up to 32 concurrent users, it features advanced MIMO Wi-Fi technology to ensure stable connections for remote work, travel, or business meetings. The compact design and intuitive interface make it an essential tool for maintaining productivity regardless of location.

Network Performance

Peak Data Rates

300 Mbps

LTE FDD Download

50 Mbps

LTE FDD Upload

Supported Bands

LTE FDD B1/3/5/7/8/20/28, LTE TDD B38/B40/B41, UMTS B1/2/5/8, GSM Quad Band

Connectivity

Wi-Fi Specifications

- 802.11 b/g/n/ac
- 2.4G 2x2 MIMO
- 5G 2x2 MIMO
- Up to 32 simultaneous users
- WPS supported
- WPA/WPA2 security

Physical Dimensions

Device Interfaces

- 1 x SIM slot
- 1 x USB port

Dimensions

109 x 65 x 14.05 mm

Operating Environment

Temperature Range

Condition	Temperature
Operating	0°C to 35°C
Storage	-20°C to 45°C

Operating Humidity	95 %
