

Portable Air Compressor for Pneumatic Tools and Spray Painting

This air compressor is designed for a variety of applications, providing compressed air for pneumatic tools and spray painting. It features a robust motor, a durable air tank, and a safety valve.

Product Overview

Professional Portable Air Compressor

This oil-belt driven portable air compressor is engineered for versatility, serving as a reliable power source for pneumatic tools and professional spray painting tasks. Featuring a robust 2200W motor and a 50L tank capacity, it delivers consistent performance with an air flow of 400L/min. Designed for mobility, the unit is equipped with wheels and a handle, making it an ideal choice for dynamic work environments.

Performance Metrics

Key Performance Metrics

2200 W Power Input	400 l/min Air Flow	50 L Tank Capacity	1100 /min Rated Speed
------------------------------	------------------------------	------------------------------	---------------------------------

Technical Specifications

Voltage Compatibility

- 110-120V / 60Hz
- 220-240V / 50Hz

Pressure Options	8 bar (115 psi), 10 bar (145 psi)
------------------	-----------------------------------

Lubrication Style	Oil-Belt driven
-------------------	-----------------

Logistics and Warranty

Warranty

1 Year Warranty

Weight	60/65 Kgs
