

Portable Air Compressor for Spraying and Pneumatic Tools

This portable air compressor is designed for spraying, inflating, and powering pneumatic tools. It features a compact and lightweight design for convenient transport and storage.

Product Overview

Versatile Portable Power

This portable air compressor is engineered to support a wide range of applications, from professional spray painting to operating pneumatic tools. Its compact, lightweight design ensures it remains highly portable for job sites while maintaining a robust, durable steel tank construction. Featuring an oil-free pump for minimal maintenance and integrated user-friendly controls, this unit is an efficient solution for both demanding professional tasks and DIY projects.

Technical Specifications

Pump System	Oil-free
Tank Construction	Durable Steel
Key Features	Pressure Gauge, Pressure Regulator, Quick-connect Outlet, Lightweight Design

Usage

Primary Applications

- Spraying and Painting
- Pneumatic Tool Operation
- Inflation Tasks
