Overview

Professional Portable Compressed Air Solution

This portable air compressor is engineered for reliability and versatility in diverse working environments. Featuring a 24-liter tank and a single-stage reciprocating pump, it provides consistent pressure for pneumatic tasks. Designed with mobility in mind, the unit includes integrated wheels and a handle, making it an ideal choice for site work, automotive maintenance, and precision spray painting.

Technical Specifications

Tank Capacity	24 L
Pump Mechanism	Single-stage reciprocating

Equipment Features

Integrated Components

- Pressure gauge
- Pressure regulator
- Safety valve
- Transportation wheels
- Ergonomic handle

Application

Primary Applications	Tire inflation, Pneumatic tool operation, Spray painting, General maintenance
