

# Portable Air Compressor with Vacuum Cleaner

This portable device combines an air compressor and a vacuum cleaner. It is designed for inflating tires and cleaning vehicle interiors.

## ADDITIONAL IMAGES

## Product Overview

### Versatile 4-in-1 Automotive Maintenance Tool

This multifunctional portable device combines an air compressor and a powerful vacuum cleaner into one compact unit, designed specifically for automotive maintenance and interior cleaning. Powered directly via a 12V car lighter socket, it offers the convenience of on-the-go tire inflation and quick debris removal. With integrated lighting and multiple nozzle attachments, it provides a comprehensive solution for emergency roadside needs and routine vehicle upkeep.

## Technical Specifications

Power Source	12V Car Lighter Socket
Maximum Air Pressure	100 PSI
Vacuum Power Consumption	80 W
Compressor Power Consumption	200 W

## Key Features

Functions	Air Compressor, Vacuum Cleaner, Integrated Light, 4-in-1 Utility
