

Portable Air Conditioner with Adjustable Louvers

This portable air conditioner is designed for spot cooling in residential or commercial spaces. It features adjustable louvers for directing airflow and a flexible exhaust hose for venting hot air outside.

Product Overview

Compact Cooling Solution

This portable air conditioner offers versatile spot cooling capabilities suitable for both residential and commercial environments. Designed for efficiency, the unit integrates a high-performance refrigerant system with adjustable louvers to direct airflow precisely where needed. Its compact design includes a digital display and flexible exhaust system, making it an ideal choice for cooling small to medium-sized rooms with minimal maintenance.

Technical Specifications

Performance Metrics

3 levels

Fan Speeds

Control Features	Integrated Controls, Digital Display, Adjustable Louvers
Power Standard	Operates on standard voltage

Installation and Maintenance

Exhaust Method	Flexible exhaust hose included for external venting
Water Management	Built-in condensate management system minimizes manual drainage
