

# Portable Air Conditioner with WiFi Control

This portable air conditioner is designed for spot cooling in residential or commercial spaces. It features adjustable louvers for directing airflow and a digital control panel for easy operation.

## ADDITIONAL IMAGES

## Product Overview

### Smart Portable Cooling Solution

This portable air conditioner offers a versatile and intelligent climate control solution for residential and commercial spaces. Featuring advanced WiFi connectivity and smart temperature sensing, it ensures personalized comfort with minimal effort. Built with high-efficiency components like internal thread copper piping and a premium compressor, it delivers reliable cooling performance in a compact, mobile design.

## Smart Features

**WiFi control**  
Connect the air conditioner through WiFi and remotely control the air conditioner with the smart devices such as mobile phone at anytime and any place.

Remotely manage temperature and settings from anywhere using smart device integration.

**I FEEL**  
The air conditioner automatically adjusts the operating state and temperature according to the temperature feedback from the temperature sensor built in the air conditioner remote control achieving intelligent temperature control and a more comfortable experience.

The I FEEL function ensures the unit adjusts precisely to the temperature where the remote is located.

### Connectivity

WiFi Enabled, Remote App Control, Smart Device Integration

### I FEEL Mode

Automatically adjusts operation based on temperature feedback from the remote control sensor for localized comfort.

## Core Components

Equipped with world-class compressors for stable power and long-term reliability.

Internal thread design increases surface area, boosting heat exchange efficiency by up to 30%.

### Compressor Type

International Famous Brand • High Stability • Low Noise

### Heat Exchange Improvement

**30 %**

Efficiency Increase

### Piping System

Internal thread copper pipe for enhanced thermal conductivity.

## Operational Modes

### Control Features

- Turbo Cooling
- Self-Cleaning
- Sleep Mode
- Programmable Timer
- Celsius/Fahrenheit Toggle

## Design & Mobility

### Mobility & Installation

- Smooth-rolling casters
- Adjustable airflow louvers
- Digital control panel
- Window venting kit included
- Self-evaporative system
