

Portable Air-Cooled Gasoline Generator

This portable air-cooled gasoline generator provides reliable power for various applications. It features a 5.5 HP engine with electronic ignition and an oil alert system.

Product Overview

Portable Air-Cooled Gasoline Power

This series of portable air-cooled gasoline generators is engineered to provide reliable power for various applications. Available in two distinct model configurations, these units feature robust single-cylinder engines and manual starting mechanisms. Designed for versatility, they support multiple voltage outputs and include integrated oil alert systems for enhanced engine protection and durability.

Performance Specifications

Model Comparison Table

Feature	YL2900DX	YL4000DX
Rated Output (kW)	2.0	2.5
Max Output (kW)	2.0	2.8
Fuel Capacity (L)	17	15
Net Weight (kg)	36	44
Gross Weight (kg)	39	47

Rated Frequency	50 Hz

Engine & Technical

Engine Characteristics

- Single cylinder
- 2-stroke engine
- Air-cooled
- Non-contact transistorized ignition
- Manual starting system

Supported Voltages	110V, 120V, 220V, 230V, 240V
--------------------	------------------------------

Oil Capacity	0.6 L
