

Portable AM/FM Radio Receiver

This portable radio receiver supports both AM and FM bands. It is powered by two AAA batteries and includes a built-in speaker.

Product Overview

Compact 2-Band Radio Receiver

This portable 2-band radio receiver offers reliable audio performance for both AM and FM frequencies. Designed for simplicity and ease of use, it features a manual tuning dial for precise station selection and a dedicated 'TUNE' indicator light to ensure optimal signal clarity. Its compact form factor and built-in speaker make it a practical solution for portable listening needs.
