

Portable Bag Closer Sewing Machine

This portable bag closer is a sewing machine designed for closing filled bags made of various materials including paper, burlap, cotton, plastic, and woven polypropylene. It utilizes a single-thread chain stitch and features automatic thread cutting.

Overview

Portable Bag Closer Sewing Machine

This portable bag closer is a specialized sewing machine designed for efficiently sealing filled bags made from a variety of materials including paper, burlap, cotton, plastic, and woven polypropylene. It utilizes a single-thread chain stitch mechanism to ensure secure closures, making it an ideal solution for packaging applications in agriculture, food processing, and industrial sectors. The integrated automatic thread cutting feature enhances operational speed and convenience for high-volume packaging tasks.

Technical Specifications

Stitch Type	Single-thread chain stitch
Thread Cutting	Yes

Compatibility

Compatible Bag Materials	Paper, Burlap, Cotton, Plastic, Woven Polypropylene
--------------------------	---

Applications

Suitable Industries

Agriculture • Food Processing • Industrial Packaging
