

Portable Battery-Powered UVC Sterilizer Light

This portable UVC sterilizer light features a battery-powered LED UV disinfection lamp tube. It emits a wavelength of 185nm to achieve ozone sterilization, eliminating bacteria and acarid.

Product Overview

Portable UVC Sterilization Solution

This portable battery-powered UVC sterilizer provides a dual-action disinfection method using both UV light and ozone to eliminate bacteria and viruses. Designed for versatility, it is suitable for small spaces such as cars, refrigerators, wardrobes, and pet areas. With a rechargeable battery and a compact form factor, it offers an effective, chemical-free way to sanitize surfaces and air on the go.

Technical Specifications

Lamp Power	2.5 W
Input Voltage	DC 5V
Sterilization Mode	UV, Ozone
Service Life	10000 h
Material	ABS + Hardware

Battery & Power

Battery Capacity	500 mah
Battery Type	Polymer battery
Power Supply	Built-in rechargeable battery (USB)

Dimensions

Dimensions	156 x 57 x 37 mm
------------	------------------

Usage & Safety

Application Areas

- Car
- Wardrobe
- Shoe cabinet
- Refrigerator
- Kitchen
- Toilet
- Bedroom
- Baby's room
- Pet house

Operating Features

- 10-second start delay
- 10-minute auto-off timer
- Portable and rechargeable
