Overview

High-Performance Portable Audio

This portable cylinder speaker delivers a powerful 30W RMS output through a sophisticated driver setup, including a 3.5" woofer and 1" tweeter. Designed for both durability and versatility, it features an IPX5 waterproof rating and a rugged metal grill with a silicone cover. With Bluetooth 5.0 dual-mode support and an 8-hour playtime at maximum volume, it is an ideal solution for professional buyers seeking reliable outdoor and indoor audio equipment.
