Overview

Versatile Spider-Style Bluetooth Speaker

The LYB-023L is a unique portable Bluetooth speaker featuring six 'magic twist' legs that can be adjusted to various styles or even separated to function as an independent cell phone holder. It delivers high-quality 2.0 channel sound through digital sound Amp technology, making it an ideal audio companion for PCs, laptops, and mobile devices. With multiple input options including Bluetooth V3.0, TF card, and AUX, it offers flexible connectivity for any environment.
