

Portable Bluetooth Speaker with Wooden Finish

This portable Bluetooth speaker features a wooden finish. It offers wireless audio streaming via Bluetooth connectivity and has a compact, rectangular design with rounded edges for easy carrying.

Overview

Aesthetic & Portable Audio Solution

This portable Bluetooth speaker combines a sophisticated wooden finish with modern wireless audio technology. Designed for versatility, its compact, rectangular form factor with rounded edges ensures easy portability for any environment. With intuitive control panels and multiple wood finish options, it serves as both a functional audio device and a stylish decor piece.
