

Portable Breath Alcohol Tester

This portable device measures blood alcohol content (BAC) through breath analysis. It features a digital display for clear readings, LED indicators, and simple one-button operation for personal use.

Product Overview

Portable Breath Alcohol Tester

This compact and portable device is designed for rapid and reliable blood alcohol content (BAC) estimation through breath analysis. Utilizing an advanced semiconductor oxide sensor, it provides quick response times and clear digital readings. It is an ideal tool for promoting responsible decision-making and safety through simple, one-button operation.

Technical Specifications

Sensor Technology	Advanced semiconductor oxide alcohol sensor
Detection Range	0.00% - 0.40% BAC
Accuracy	0.01% BAC
