Overview

High-Performance Portable Breathing Air Compressor

This portable breathing air compressor is engineered for reliability and high-performance in demanding environments. It features a robust motor and a multi-stage filtration system that removes contaminants, moisture, and odors to deliver clean, safe, and breathable air. Designed for portability and ease of maintenance, this unit is an ideal solution for applications requiring high-quality compressed air on-site.

Key Features

Certifications

CE • ISO/TS16949 • TUV SUD

Suitable Applications

Scuba Diving, Medical, Industrial

Technical Specifications

System Components

- High-efficiency motor
- Durable pump
- Integrated multi-stage filtration system
- Pressure regulator
- Safety valve
