

Portable Carbon Fiber Space Heater with Tip-Over Protection

This carbon heater provides efficient and directional heating, utilizing carbon fiber heating elements for rapid warm-up and energy savings. The heater features a safety tip-over switch that automatically shuts off the unit if it is accidentally knocked over, preventing potential hazards.

Overview

Portable Carbon Fiber Heating Solution

This portable carbon fiber space heater is designed for versatile indoor and outdoor comfort, featuring rapid heating capabilities. It utilizes advanced carbon tube technology to provide efficient, directional warmth while maintaining safety with a built-in tip-over switch. Its compact design includes a carry handle and a cool-touch mesh cage, making it an ideal heating solution for various environments.
