

Portable CD Player Boombox with FM Radio

This portable boombox features a top-loading CD player and FM radio with a digital tuner. It has integrated stereo speakers, a telescopic antenna, a clear LCD display, and a carrying handle.

Overview

Versatile Portable Entertainment

This portable CD player boombox combines classic media playback with modern connectivity features like Bluetooth 2.1+EDR and USB/SD support. Designed for versatility, it functions as an FM radio, a clock with alarm capabilities, and a high-quality speaker for various devices including smartphones and laptops. Its compact size and integrated handle make it an ideal choice for professional buyers seeking a multi-functional audio solution for diverse environments.
