

Portable Concrete Mixer

This portable concrete mixer is used to mix concrete materials. The mixer drum assembly is a key component.

Product Overview

Portable Concrete Mixer

This portable concrete mixer is designed for efficient on-site mixing of concrete, mortar, and various construction materials. Featuring a modular drum assembly, it is engineered for easy transport and assembly, making it an ideal solution for small to medium-sized construction projects. The unit's robust design ensures stability during operation while providing the flexibility to mix aggregates of different diameters.

Technical Specifications

Mixer Type	Portable / Mobile
Drum Design	Two-piece modular assembly
Assembly Features	Detachable drum cone, Replaceable halves, Drum clip fastening

Assembly Instructions

Assembly Procedure

- Bolt blades into the drum base (finger tight)
- Apply silicone sealer to mating flanges
- Align cone over blades and position on base
- Secure cone holes with blade holes using bolts
- Apply silicone sealer to drum clip interior
- Fasten drum clip around the periphery

Operational Capabilities

Material Handling

Concrete • Mortar • Variable diameter aggregate
