

# Portable Concrete Mixer

This portable concrete mixer is designed for small to medium-sized construction projects. It features a robust steel frame, a rotating drum for efficient mixing, and a powerful motor for reliable performance.

## Product Overview

### Portable Concrete Mixer (JH90)

The JH90 is a versatile, portable concrete mixer engineered for efficiency in small to medium-sized construction projects. Built with a robust steel frame, it ensures durability and stability during operation. Its powerful motor and rotating drum design provide consistent mixing performance for concrete, mortar, and other construction materials.

## Technical Specifications

Model Number	JH90
Construction Materials	Steel Frame, Metal Drum

## Features & Usability

### Mobility

- Integrated wheels for easy maneuverability
- Tilting mechanism for controlled pouring

### Suitable Applications

Concrete • Mortar • General Construction
