

Portable Concrete Mixer

This portable concrete mixer is designed for small to medium construction projects. It features a rotating drum for thorough mixing and a sturdy frame with wheels for easy transportation.

Overview

Versatile Portable Concrete Mixer

This portable concrete mixer is designed for efficiency in small to medium-sized construction projects. Featuring a heavy-duty steel drum and a powerful 800W motor, it provides reliable performance for mixing concrete, mortar, and other materials. Its mobile design with integrated wheels and a round handle ensures easy transportation and controlled pouring on any job site.

Performance Metrics

Key Performance Indicators

220 L

Capacity

800 W

Motor Power

29 rpm

Max Mix Speed

Drum Specifications

Drum Construction Details

Feature	Specification
Drum Diameter	600mm
Upper Drum Thickness	1.5mm
Lower Drum Thickness	2.0mm
Material	Heavy duty steel

Technical Specifications

Gear Ring

Cast Iron

Motor Configuration

2 pole motor

Voltage

220V-240V / 50HZ

Design & Handling

Mobility & Control

- Sturdy frame with wheels for easy transport
- Handwheel for controlled tilting
- Manual pouring mechanism

Handle Style

Round handle

Applications

Suitable Materials

Concrete, Mortar, Construction Materials
