

Portable Dehumidifier with Electronic Control

This dehumidifier features a slim, compact design with a 10L to 12L per day capacity. It has electronic soft touch controls, a 24-hour timer, and uses environmental friendly R290 refrigerant.

Product Overview

Compact Moisture Control

The D015B is a slim and compact dehumidifier engineered for efficient moisture removal in residential or small commercial environments. It features intuitive electronic soft-touch controls and a 24-hour timer for flexible operation. Designed with mobility in mind, the unit includes a convenient handle and 360-degree casters for easy relocation.
