

Portable Digital Breath Alcohol Tester

This is a portable breathalyzer designed for personal use. It estimates blood alcohol content (BAC) from a breath sample.

Product Overview

Portable Digital Breath Alcohol Tester

This portable digital breath alcohol tester is designed for quick and convenient blood alcohol content (BAC) assessment. It features an intuitive digital display with clear LED indicators to help users understand their alcohol concentration levels. Compact and battery-operated, it is a practical tool for personal safety monitoring.

Technical Specifications

Model Number	LD007-AD8-A
Power Source	2 x 1.5V AAA Alkaline Batteries

Performance Metrics

Safety Threshold

0.02 % Safety Limit (BAC)	0.1 mg/L Safety Limit (BRAC)
-------------------------------------	--

Danger Threshold Range	0.02% - 0.05% BAC (0.1 - 0.25 mg/L BRAC)
------------------------	--

Features

Indication Methods

- Digital Display
- LED Indicators
- 2-Step Test Process
