Product Overview

Portable Digital Tire Inflator

This portable digital tire inflator is designed for efficient automotive maintenance and emergency roadside assistance. Featuring a compact and durable build, it offers reliable inflation performance with a maximum pressure of 120 PSI. Equipped with an integrated digital display and LED lighting, it ensures ease of use in various conditions, making it an essential tool for car and bike owners.

Performance Metrics

Maximum Pressure	120 PSI
Output Flow Rate	18 L/MIN
R15/195/60 Tire Inflation Time (0-33.5PSI)	7 mins

Power & Electrical

DC Voltage	12 V
Power Rating	120 W
Battery Capacity	2000mAh Li-ion
USB Charging Input	5.0V 1A

Technical Specifications

Cylinder Diameter	17 mm
Max Continuous Operation	30 min

Features

Key Features	Digital Display, LED Light, Portable Design, USB Rechargeable
