Product Overview

High-Performance Portable Air Compressor

This portable direct drive air compressor is engineered for reliability and versatility across various professional and home environments. Featuring a reinforced, high-strength cover capable of supporting up to 90 kg, it combines durability with a user-friendly design. The unit incorporates an advanced cylinder head that reduces noise by 10 dB while enhancing energy efficiency and environmental performance.

Technical Specifications

Tank Capacity	80 L
Maximum Pressure	8.4 bar
Operating Temperature	10°C to 100°C

Features & Benefits

Noise Reduction

10 dB
Noise Reduction

Load Capacity

90 kg
Max Load

Applications

Suitable Industries	Chemical Fiber, Hospital, Food Processing, Packaging, Construction, Environmental Protection, Home Equipment
---------------------	--

Design & Portability

Portability

- Integrated handle
- Durable wheels for transport
- Compact design

Control Interface

- Pressure gauge
- Pressure regulator
- Safety valve
