

# Portable Disinfection Spray Gun

This portable disinfection spray gun is designed for sanitizing surfaces with a fine mist. It features an ergonomic grip, transparent reservoir, and easy operation for use in homes, offices, and other environments.

## Product Overview

### Portable Disinfection Solution

The Portable Disinfection Spray Gun is a versatile tool designed for efficient surface sanitization in professional and residential settings. Featuring an ergonomic handheld design, it disperses a fine mist of disinfectant solution to ensure thorough coverage. With its robust battery life and consistent air flow, this device provides a reliable solution for maintaining hygiene in offices, homes, and other environments.

## Technical Specifications

### Instrument Classification

Class III

Model Number	BDA67021A
Equipment Type	Pressure Steam Sterilization Equipment
Place of Origin	China

## Performance Metrics

### Key Performance Metrics

**2000 mAh**

Battery Capacity

**6 hours**

Working Time

**3 L/min**

Air Flow

**20 PSI**

Working Pressure

## Power & Charging

### Electrical Requirements

Parameter	Value
Voltage	DC 3.7V
Power	2.6W
Full Charge Time	~3.5 hours

## Service & Support

### Warranty and Support

- 1 Year Warranty
- Online technical support
