

Portable Drill Bit Sharpener

This portable electric sharpener is designed for twist drill bits. It is equipped with diamond grinding wheels for extended use and accurate sharpening.

Product Overview

Rapid and accurate grinding without requiring professional skills.

Professional Portable Drill Bit Grinder

The PG-13A is an efficient, portable solution for restoring worn twist drill bits and various cutting tools. Engineered with a powerful 180W DC motor, it provides stable frequency and high-precision grinding without requiring professional skill levels. Its compact 10kg design and diamond grinding wheel technology make it a cost-effective choice for both workshop and on-site maintenance.

Technical Specifications

Precision-engineered components for consistent grinding.

Grinding Range	2 mm - 13 mm
Point Angle	100° - 135°
Voltage	AC 220V
Motor Power	180 W
Weight	10 kg
