

Portable Earth Auger Drill

This portable earth auger drill is designed for efficient and precise hole drilling. It features a robust engine for reliable power and a durable auger for effective soil penetration.

Product Overview

Professional Earth Drilling Solution

The 3WT-250400 earth auger is engineered for high-efficiency hole drilling in professional environments. Featuring a robust engine and high-torque output, this machine is designed to penetrate tough soil conditions with ease. Its lightweight, ergonomic construction ensures comfortable operation and easy transport for tasks ranging from fence post installation to tree planting and soil sampling.

Performance & Operation

Performance Capability

1 High

Torque Level

Control Features

Adjustable Speed Control, Ergonomic Handling

Safety & Design

Safety Equipment

- Emergency stop switch
- Protective auger shield

Applications

Primary Applications

Fence Post Installation • Tree Planting • Soil Sampling
