

# Portable Electric Air Pump with Digital Display

This is a portable dual-function air pump used for inflating tires and other inflatable items. It features a digital display, multiple pressure settings, and various nozzle attachments.

## Overview

### Dual-Function Versatility

This portable electric air pump offers a dual-function design, acting as both a high-pressure compressor and a standard inflator. Engineered for convenience, it features a clear digital display and automatic shut-off functionality once the preset pressure is reached. With support for multiple power sources including AC, DC, and vehicle power, it is a versatile tool for various inflation needs.

## Performance Metrics

### Key Performance Metrics

**160 W**

Compressor Power

**1 MPa**

Max Pressure

**18 L/min**

Flow Rate

## Technical Specifications

### Secondary Inflater Specs

Specification	Value
Power	30W
Air Pressure	3.2 kPa
Trachea Length	28 cm

**Supported Pressure Units** bar, psi, kPa, kg

**Compressor Trachea Length** 95 cm

## Features

### Power Supply Options

- AC Power
- DC Battery
- Vehicle Power Supply

### Convenience Features

Digital Display • LED Indicator • Automatic Shut-off • Lightweight Design
