

Portable Electric Cement Mixer

This portable electric cement mixer is designed for small to medium-sized projects. It features a durable plastic drum on a steel frame with wheels and is powered by an electric motor for consistent mixing.

Overview

Rugged and Portable Mixing Solution

This portable electric cement mixer is designed to balance affordability with professional-grade durability, making it an ideal choice for both DIY projects and professional job sites. Built with a heavy-gauge steel frame and flat-free polyurethane tires, it offers exceptional maneuverability and reliability. The 3.5 cubic foot polyethylene drum is engineered to resist dents, cracks, and rust while remaining easy to clean, ensuring a long service life.

Technical Specifications

Motor Power

0.75 HP

Horsepower

375 W

Power Consumption

8 A

Amperage

Drum Capacity	3.5 cu. ft.
Max Load Weight	180 lbs
Rotation Speed	28 RPM
Voltage	120V

Design & Construction

Drum Material	Polyethylene (5/16 in. gauge)
Frame Material	Heavy gauge steel
Tire Type	Polyurethane flat-free

Dimensions & Logistics

Dimensions and Logistics

Metric	Measurement
Body Size	1200 x 600 x 1000 mm
Carton Size	740 x 620 x 630 mm
40' HQ Quantity	228 pcs

Features

Key Features	Rust Resistant, Durable Construction, Easy to Clean, Telescoping Handles, Flat-Free Tires
