

Portable Electric Concrete Mixer

This portable concrete mixer has a capacity ranging from 80L to 200L. It is powered by an electric motor.

Product Overview

Portable Electric Concrete Mixer

This portable electric concrete mixer is designed for efficiency and durability in small to medium-sized construction projects. Featuring a robust steel frame and a reinforced mixing drum, it ensures reliable performance when mixing cement, sand, and gravel. The unit includes a convenient tilting mechanism for easy pouring and integrated wheels for seamless transport on job sites.

Technical Specifications

Motor Power

550 W

Motor Power

Drum Thickness

- Upper Drum: 1.5mm
- Lower Drum: 2.0mm

Voltage & Frequency

110V/50-60Hz, 220V/50-60Hz, 380V/50-60Hz

Drum Rotation Speed

32 rpm

Model Comparison

Model Comparison Matrix

Model	Capacity (L)	Mass (kg)	Packing Size (mm)
