

Portable Electric Concrete Mixer - 200 Liter Drum, 800W Motor

This portable electric cement mixer is suitable for both DIY and professional applications. Its durable all-steel frame ensures sturdiness and easy portability, complemented by large wheels for convenient movement.

Overview

Versatile Portable Mixing Solution

This 200-liter portable electric concrete mixer is designed for both professional construction sites and demanding home projects. It features a durable all-steel frame and a high-torque 800W motor to ensure consistent mixing of concrete, mortar, and other materials. With its large wheels and integrated tilting mechanism, it offers excellent maneuverability and precise pouring control for efficient workflow.
