

# Portable Electric Concrete Mixer with Steel Frame

This portable electric cement mixer is suitable for both DIY and professional applications. The all-steel frame ensures durability and easy portability, while large wheels facilitate convenient movement.

## Overview

### Versatile Mixing Solution

This portable electric concrete mixer is designed for both professional construction sites and demanding DIY home projects. Built with a durable all-steel frame and a robust steel drum featuring reinforced blades, it ensures consistent mixing of concrete, mortar, and other materials. The integrated safety features and large wheels make it a reliable and easy-to-maneuver tool for various job site conditions.

## Performance

### Performance Highlights

**650 W**

Motor Power

**160 Liters**

Drum Capacity

**390 mm**

Drum Mouth

## Design & Construction

### Drum Features

- Reinforced mixing blades
- Durable steel construction
- Tilting mechanism for precise pouring
- Wide 390mm opening

### Frame Material

All-steel frame

## Mobility & Safety

### REPLACEABLE WHEELS

The mixer features a sturdy frame and replaceable wheels for enhanced mobility on various terrains.

### Mobility Features

Large Wheels, Replaceable Wheels, Portable Design

### Safety Switch

Yes

## Physical Dimensions

### Physical Specifications

Dimension	Value
Overall Dimensions	121 x 70 x 137 cm
Weight	48 kg
Model Number	QTP4111
