

Portable Electric Hand Dryer with Display

This compact electric hand dryer is designed for household use. It features a foldable design with a small display screen for ease of use and storage.

Product Overview

Compact Hand Drying Solution

This portable electric heating hand dryer is engineered for efficient, household-level performance. Featuring a unique, foldable flip-phone inspired design, it offers a space-saving solution for drying hands quickly. The integrated display screen provides a modern interface, while the durable construction ensures long-lasting reliability in a compact form factor.
