

Portable Electric Power Generator

This portable generating set is designed to supply electrical power in diverse settings. It features a durable construction, a control panel for monitoring, multiple outlets, wheels, and handles for mobility.

Product Overview

High-Performance Portable Power

This super-silent gasoline generator is designed for reliable power delivery in demanding environments. Featuring a robust OHV 4-stroke engine with electric start, it ensures consistent performance for tools, appliances, and equipment. With a rated power output of 5500W and a 25L fuel capacity, it is an ideal solution for remote locations or emergency backup power.

Engine Specifications

Engine Type	OHV, Single cylinder, Forced Air Cooling, 4-Stroke
Bore x Stroke	90x66 mm
Compression Ratio	8.0:1
Starting System	Electric start
Ignition System	Transistor magneto

Performance Metrics

Key Output Metrics

6000 W Max Power	5500 W Rated Power	22.7 A Rated Amperage
----------------------------	------------------------------	---------------------------------

Electrical Output

- Rated Voltage: 220V
- Frequency: 50Hz
- Voltage Regulation: Automatic Voltage Regulation

Capacities and Dimensions

Fuel and Oil Capacities

Fluid Type	Capacity	Unit
Fuel Tank	25	L
Oil	1.1	L

Physical Dimensions	945 x 615 x 725 mm
Net/Gross Weight	93/95 kg

Compliance and Options

Optional Features

LPG Capability

Certifications

EPA, CARB
