

Portable Electric Tile Cutter with Water Cooling

This portable electric tile cutter is designed for cutting ceramic, porcelain, and mosaic tiles. It features a water-cooled diamond blade for clean and precise cuts.

Product Overview

Professional Tile Cutting Solution

This portable electric tile cutter is engineered for precision and efficiency when working with ceramic, porcelain, and mosaic tiles. Featuring an integrated water cooling system, it minimizes dust while extending the life of the diamond blade for cleaner, more accurate cuts. Designed for mobility and ease of use, it includes a sliding table for precise positioning and an adjustable cutting angle to handle various installation requirements.

Key Features

Safety & Protection

- Safety guard included
- Dust suppression system
- Water-cooled blade operation

Compatible Materials

Ceramic, Porcelain, Mosaic

Operational Details

Cooling Method

Water-cooled system with built-in reservoir

Cutting Angle

Yes

Logistics

Transportability

Includes integrated carrying case for easy storage and transportation
