

Portable Emergency and Security Lantern with Spotlight

This portable emergency and security lantern is designed for versatile illumination. It features a spotlight for focused light projection and switches for controlling different lighting modes.

Product Overview

Versatile Emergency Lighting

This portable emergency and security lantern is engineered for reliable illumination in power outages, camping, and security scenarios. Featuring three 10W fluorescent tubes, it offers 360-degree light distribution to ensure maximum visibility. The unit is designed for convenience, incorporating a durable metal handle and a rechargeable battery system that supports automatic light-up during emergencies.
