

Portable Evaporative Air Cooler

This portable air cooler provides efficient cooling and humidification for personal spaces. It features adjustable fan speeds and a water tank for evaporative cooling, offering a convenient and energy-saving alternative to traditional air conditioning.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler provides effective cooling and humidification for indoor spaces ranging from 25 to 45 square meters. Designed as an energy-efficient alternative to traditional air conditioning, it features a large 32-liter water tank for extended operation. Its compact, mobile design ensures it can be easily repositioned to meet your cooling needs.

Performance Metrics

Effective Cooling Area

25 m²

Minimum Area

45 m²

Maximum Area

Operating Noise Level

50-60 dB

Technical Specifications

Water Tank Capacity

32 L

Water Consumption Rate

3-4 L/H

Logistics

Container Loading (40'HQ)

240 pcs
