

Portable Evaporative Air Cooler for Home and Commercial Use

This evaporative air cooler is designed for both household and commercial use, making it suitable for environments like offices, restaurants, and stores. It provides a portable cooling solution by utilizing the evaporative cooling method.

Product Overview

Versatile Cooling Solution

This portable evaporative air cooler offers a flexible cooling solution suitable for both residential and commercial environments. Designed for mobility and ease of use, it features a water-based cooling system that effectively lowers ambient temperatures in spaces like offices, restaurants, and outdoor areas. Equipped with adjustable louvers and casters, it provides directed airflow and convenient portability wherever cooling is needed.
