

Portable Evaporative Air Cooler with Adjustable Louvers

This air cooler provides efficient and portable cooling. It features adjustable louvers and a water tank for enhanced effectiveness in dry conditions.

Overview

Versatile Climate Control

This portable air cooler provides a comprehensive solution for indoor climate control, offering cooling, heating, and humidifying capabilities in a single unit. Designed for convenience, it features cross-flow airflow technology and automatic oscillation to ensure even distribution throughout your space. With user-friendly remote control operation and a built-in timer, this unit is an efficient choice for maintaining comfort in homes or offices.

Key Functions

Cooling, Heating, Humidifying, Air Freshening
