

Portable Evaporative Air Cooler with Remote Control

This portable evaporative air cooler provides efficient cooling with multi-speed fan settings and oscillating louvers. It features a digital display, remote control, water level indicator and caster wheels for easy mobility.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler offers a versatile cooling solution designed for ease of use and mobility. Featuring multi-speed fan settings and oscillating louvers, it ensures wide and consistent air distribution throughout the space. The unit is equipped with a digital display and remote control for convenient operation, while the integrated water level indicator and caster wheels enhance its practicality for various environments.

Key Features

Control Interface	Digital display with remote control
Mobility	Caster wheels, Portable
Airflow Control	Yes

Technical Specifications

Maintenance Indicators

- Visible water level indicator
- Refillable water tank

Cooling Technology	Evaporative cooling
