

# Portable Evaporative Air Cooler with Remote Control

This portable evaporative air cooler is designed for residential and commercial use. It features a multi-speed fan, adjustable louvers, and a large-capacity water tank for extended operation.

## Product Overview

### Versatile Cooling Solution

This portable evaporative air cooler is engineered for both residential and commercial applications, providing efficient cooling through an advanced pad system. It features a multi-speed fan and adjustable louvers that allow for precise control over directional airflow. Designed for convenience and mobility, the unit includes a large-capacity water tank for extended operation, a digital control panel, and a remote control for easy adjustments.

## Performance & Features

Cooling Technology	Evaporative Cooling
Control Interfaces	Digital Control Panel, Remote Control
Airflow Control	Yes

## Design & Mobility

### Mobility

Caster Wheels • Portable

### Suitable Environments

- Residential
- Commercial
