

Portable Fiber Laser Marker for Metal

This portable fiber laser marking machine is designed for easy movement and features air-cooling. It delivers a perfect output beam, high reliability, and requires no consumables or maintenance.

Product Overview

Precision Marking Solution

This portable fiber laser marking machine is engineered for high-precision, permanent marking on a variety of metallic surfaces, including stainless steel and aluminum. Designed for industrial efficiency, it offers a user-friendly interface with fully adjustable marking parameters to suit diverse production needs. Its compact, portable form factor ensures seamless integration into existing workflows, making it an ideal choice for professional-grade industrial applications.
