

Portable FM Radio with Wooden Enclosure

This portable radio features a classic wooden design with a modern digital display. It includes a speaker and a tuning knob for precise frequency adjustment.

Product Overview

A Blend of Classic Aesthetics and Modern Connectivity

This portable radio features a premium wooden enclosure, combining a nostalgic design with versatile modern audio playback. Designed for both functionality and convenience, it supports multiple input modes including Bluetooth, AUX, USB, and TF card, while offering integrated features like hands-free calling and an alarm clock. Its compact, rechargeable build ensures high-quality sound on the go.
