

# Portable Gas Burner and Built-In Gas Stove

This set includes a portable single gas burner and a built-in double gas stove. The portable burner is ideal for small spaces, while the built-in stove offers a sleek, modern cooking solution.

## Product Overview

### Versatile Cooking Solutions

This product offering includes both a portable single gas burner and a built-in double gas stove, catering to diverse culinary requirements. The portable unit features a compact, yellow design ideal for flexible cooking needs, while the stainless steel built-in stove offers a sleek, modern aesthetic for permanent kitchen installations. Together, they provide a reliable and efficient cooking solution for both professional and domestic environments.
