Product Overview

Compact Power for Pruning and Limbing

This portable gasoline-powered chainsaw is engineered for versatility and efficiency in pruning, limbing, and light-duty cutting tasks. Designed with an ergonomic focus to ensure comfortable handling and reduced operator fatigue, it offers a robust solution for both professional and home-use scenarios. The unit balances high-performance engine output with a compact, lightweight frame, making it an ideal choice for maneuverability in the field.

Technical Specifications

Model	NT3700
Power Source	Gasoline

Compliance & Standards

Certifications	CE, EURO II
